

## GOT CHAINS?

Ever get tired of getting your chain jerked?  
Humans got hands, put them together.  
They say two heads are better than one;  
I'd rather not listen to heads,  
if they have no heart and don't use their hands.  
God Almighty speaks to me and to you  
and to Joe and Maggie and Rhonda, too,  
and to just about everybody.  
So get beyond that and work with us.  
Love knows every color and each child;  
it knows women and men, fish and birds  
and plants and rocks, all this creation.  
What's wrong with us that we can't see it  
though we got eyes (and ears) of our own?  
How "convenient" is it really  
to let others do our own thinking?  
Why can't we let go at our end of it?  
To begin, why did we hook ourselves up?  
Imagine life with many open minds,  
with big strong hearts and busy helpful hands...  
What could be done without the sound of chains?
